Bath Faucets | Bath Accessories

CONSERVE WATER....

OUR FUTURE
NEEDS IT!

- Avoid leakage of water from taps.
- Turn the tap off when not in use especially when you brush your teeth or wash clothes.
- Check the leakage of water in the toilets. Also get check the hidden water leaks.
- Never throw the water unnecessary on roads which can be used for gardening and cleaning.
- Avoid unnecessary flushing the toilets. Use minimum amount of water to bath.
- Water your lawn only when it is needed.
- Do not leave the tap running while washing the dishes in the kitchen.
- Install small shower heads to reduce the flow of water.

REDUCE
RECUSE | RECYCLE

IT IS OUR
ENVIRONMENT

SMART TIPS

HIRAN constantly strives to interact with costumers and make its products consumer - friendly. The company's trained staff and executives maintain a direct interface with consumers, educating them about the product quality, convenience and maintenance. HIRAN also believes that costumers must get the best out of its products. Hence it has evolved a set of consumers guidelines, which if followed ensure optimum and trouble -free performance with enhanced durability of HIRAN products for year to come.

DURING INSTALLATION

- Use 25 mm pipeline instead of 20mm to ensure better flow of water. Lay the pipelines straight and vertical as far as possible.
- More than required number of bends throttle the pressure of water. Keep the number of bends in the pipelines to a minimum. All the supply lines must have vent pipes which helps in giving a smooth flow of water from the fittings.
- Center to center distance of pipe fittings for Hot & Cold inlet for all types of wall mounted at 165mm by which any of our wall mixers can be easily installed without any problem.
- Place the outlet point in the overhead tank atleast 2.5 cm above the ground level of the tank. This prevent flow of foreign particles, sand etc. along with water supply into the fittings avoiding the possible damage to the working parts.

POST INSTALLATION

- Cover the taps polypack before or after their installation till they are put to actual use to protect the fine finish of fittings from dirt, stains and other damages.
- Do not use harsh cleaning agents containing abrasives and acids, Instead use a soft sponge or wet cloth with soapy water /diluted vinegar to protect the colour finish.
- Clean the aerators provided in the items at regular intervals for a perfect flow of water from the fittings. To clean the aerator, remove it, knock out the silver insert and rinse throughly with water.
- Clean the overhead tank thoroughly before the supply starts. It is suggested that the overhead tank must be cleaned at regular intervals to avoid deposition of foreign.

| Our Founder

T. CHAMPALAL HIRAN

| Our MOTTO

**QUALITY AND DURABILITY SERVICE
AND ASSURANCE CO-OPERATION
AND PROSPERITY**

In summary, our motto encapsulates our commitment to delivering bathroom fittings of the highest quality and durability. We prioritize exceptional customer service and assurance, ensuring that every interaction with our brand exceeds your expectations. By fostering co-operation and prosperity, we aim to not only meet your needs but also contribute positively to the larger community.

About Us

**With over 40 years of experience,
We have won various awards.**

The brand "HIRAN" took off quickly, serving more than 500 dealers in Tamil Nadu and over 50,000 customers in a few years, gaining popularity among plumbers, engineers, and contractors. We expanded our business from Tamil Nadu to Kerala, Karnataka, Maharashtra, Andhra Pradesh, Gujarat, and Rajasthan, strengthening their presence in the market.

SHOWER WITH FILTER

FUNCTION

Saturating

Intense Saturating

Dancing Massage

Anti-Lime

FUNCTION

- Remove chlorine.
- Reduce chemical absorption and vapor inhalation.
- Remove water soluble heavy metals.
- Remove lime, scale, dirt, sediment and fungi in showers.

Filter Shower
576

THE HARM OF CHLORINE

Showering chlorinated water, a chemical prevalent in water supplies, can be easy to absorb the chlorine by vapor cause damage for health. Chlorine can strip the protective oil from the hair causing it to frizz and become brittle. Chlorine can also strip away the skin's oil causing to dry and crack, leading to premature signs of aging.

COMPOUND

KDF, Calcium Sulfite, Active carbon, S.S. Filter mesh.

HAIR & SKIN CARE

Washing hair filtered water helps to protect and restore its natural luster resulting in improved body and shine. Protect your skin and feel refreshed by showering in filtered water.

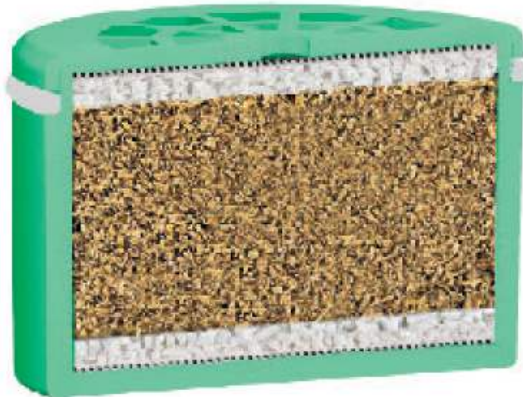

FILTER ADAPTOR

Could be used to shower head, shower set, wall elbow, shower mixer & shower rail set F1/2in, M1/2 out.

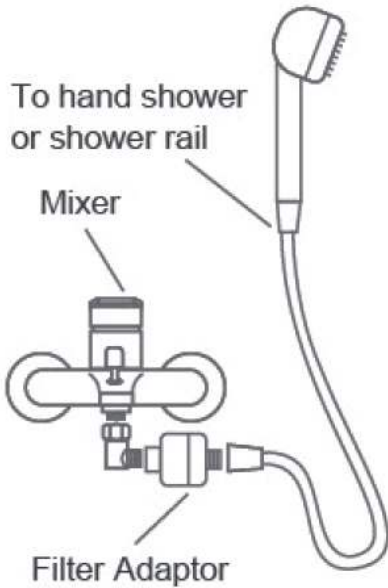

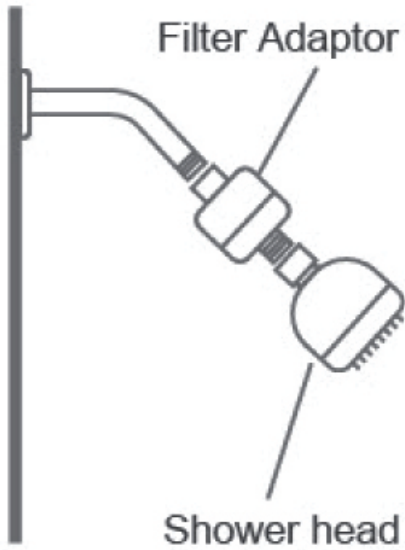

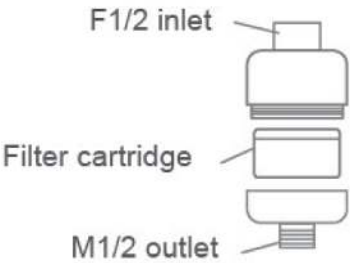

FILTER ADAPTOR

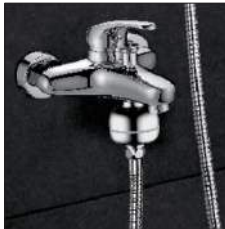

FILTER CARTRIDGE TYPE

KDF & Calcium Sulfite
Lifetime : 6-12months
(130L water per day)

THREAD SEAL TAPE

WHAT IS THREAD SEAL TAPE:

THREAD SEAL TAPE (TEFLON TAPE) IS A COMMON, INEXPENSIVE AND EFFECTIVE THIN YELLOW TAPE USED TO SEAL PIPE THREADS BEING JOINED TOGETHER FOR PLUMBING PURPOSES. IT IS USED TO SEAL WATER, FROM LEAKING THROUGH THREADED CONNECTIONS.

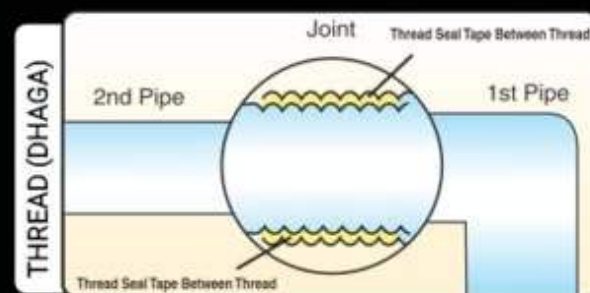

**LEAKAGE...
NO CHANCE**

THREAD SEAL TAPE VS DHAGA

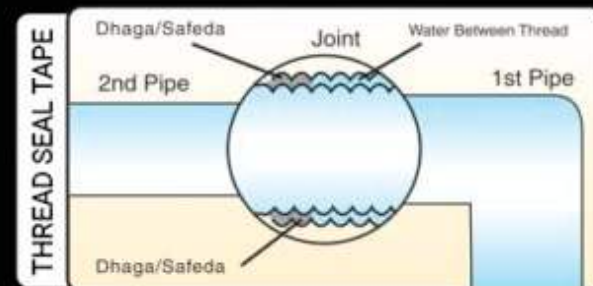

WHEREAS PLUMBER USES THREAD (KNOW AS DHAGA/SAFEDA) TO SEAL JOINT PIPE LINES, THREAD ONLY COVER FIRST FEW THREADS WHICH HAS GOOD CHANCES OF LEAKING. (SEE THE DIAGRAM)

HIGH CHANCE OF LEAKAGE

WHY THREAD SEAL TAPE USE:

THREAD SEAL TAPE COVER ALL THREAD FILLING THE GAP BETWEEN THREAD TO THREAD MINIMIZING CHANCES OF LEAKAGE (SEE DIAGRAM:)

NO CHANCE OF LEAKAGE

SQUARE
SINGLE BOWL

DESCRIPTION :

Hiran Square Single Bowl Kitchen Sinks built with 1mm thick 304-Grade Stainless Steel come with Sound-deadening Pads, Installation Accessories (Waste pipe & coupling), and 10 Years of Warranty.

MATERIAL & FINISH :

- Kitchen Sinks are manufactured in 1mm Thick AISI-304 Grade Stainless Steel- 18% Chromium and 8% Nickel composition that actively resists rusting for a longer time.
- Mirror-like Glossy Finish that adds sparkle to your kitchen.

FUNCTIONALITY :

- Square shape gives the sink bowl more space than the conventional oval bowls.
- Sink has a sloped surface that allows quick drainage of water.
- Heavy-duty Stainless Steel Sink Coupling prevents waste from clogging the drainage pipes.
- Robust Non-breakable PVC Waste Pipe is exclusively designed for fast uninterrupted flow with endurance to the extreme temperatures of water.

OVAL
SINGLE BOWL

DESCRIPTION :

Hiran Oval Single Bowl Kitchen Sinks built with 1mm thick 304-Grade Stainless Steel come with Sound-deadening Pads, Installation Accessories (Waste pipe & coupling), and 10 Years of Warranty.

MATERIAL :

Oval Single Bowl Sinks are manufactured using Premium Stainless Steel.

FUNCTIONALITY :

Oval Bowl Sinks with sloped surface ensures quick water drainage.

SOUND-ABSORPTION:

Equipped with feather-weight Sound-Dampening Foam Pads that absorb the noise from running water or utensils.

DRAIN BOARD

MATERIAL & FINISH :

Square Single Bowl Sinks with Drainboard are manufactured using 1mm Thick Premium Stainless Steel.

FUNCTIONALITY :

Square shape of the sink bowl provides more space than conventional oval bowls, and its sloped surface ensures quick water drainage.

DOUBLE-PRESSED :

Square Drainboard Sinks undergo annealing and are pressed twice hydraulically for increased ductility (less hardness) and resistance against denting, cracking, and extreme temperatures.

SOUND-ABSORPTION :

Equipped with feather-weight Sound-Dampening Foam Pads that absorb the noise from running water or utensils.

QUARTZ SINGLE BOWL

MATERIAL :

Crafted from premium 14mm thick quartz, a durable blend of quartz stone and acrylic resin, ensuring strength and sophistication.

MAINTENANCE :

For long-lasting beauty, clean your sink with gentle scrubbers and mild detergents. Always dry it after use to prevent water and salt marks. Refrain from using abrasive tools or harsh chemicals like bleach and acids to maintain the integrity of your sink.

BOTTLE TRAP

Bottle Trap
328

The bottle trap is an essential element of the basin's plumbing that keeps the bathroom hygienic and odor-free. When we use the basin, the used water goes down the basin waste, into the drainage pipe, and then into the sewer, where a lot of other waste and dirt is accumulating. Naturally, that accumulation involves a lot of nasty and potentially harmful gases.

INTERNAL FITTINGS

HALF TURN
(NEW FRT TECHNOLOGY) / QUARTER TURN

HIRAN internal fittings are made of Brass, which as high tensile strength & is corrosion resistant. HIRAN internal fitting is made of **Drop Forged** Bannet, the sturdiest from of casting, Valve & spindle are made of extruded rod whose composition is lab tested. To establish the quality of HIRAN internal fitting performance test is carried out of **one-lac operations** . Hydraulic pressure test is also performed on bonnet of leakage test. Advanced international **Double ‘O’ Ring** protection provided at the bottom of the spindle to stop water entering the threads; this keep threads lubricated resulting in lesser wear & tear and longer life. Grease used for threads as well as ‘O’ rings are silicon based compound **Food Grade Grease**, which are specially made for Metal -To-Metal and Rubber-To-Metal contact as per requirement. Ceramic Disk is also tested for alumina and silica content, we test that Alumina content in our ceramic disk should be 95% to ensure its long life, air compression pressure test is also performed for leakage test.

SINGLE LEVER CARTRIDGE

Single Lever ceramic cartridge is used in 40mm diameter to ensure maximum water pressure. Ceramic Disk is also tested for alumina and silica content, we test that alumina content in our ceramic disk should be 95 % to ensure its long life, Air Compression pressure test is also performed for leakage test.

WARRANTY TERMS

- Dear Customer, Thanks for choosing HIRAN. Your HIRAN product is warranted for 5 years against any manufacturing defect, however warranty is subjected to following terms & conditions.
- Maximum liability of the company is limited only to repair or replacement of the piece.
 - Warranty is not accepted in case of improper or incorrect use or installations, normal wear & tear, careless use and improper maintenance etc.
 - Plastic, Rubber and A.B.S parts are not warranted against breakages and natural wear & tear.
 - No warranty for mutilated & broken parts/pieces.
- Company is not liable for any other loss, damage or expense born by the customer.
- In all cases decision of the company will be final and binding.
 - All disputes are subject to Madurai Jurisdiction only.
